

After The Rain

*You came into my life one day, you turned it upside down, I liked you right
away
You bring joy to my life, when I get up in the morning I smile the rest of the day*

*Bridge:
I can see my unborn children in your eyes
I see forever, I see light*

*Chorus:
You brought me sunshine after the rain, something to hold on to when the nights
where so long
You brought me peace of mind, Love and affection
You brought me sunshine after the rain*

*When you are away I feel hurt, I wanna hold you, smell you, Feel you near
Sometimes I stop and think back, how lonely my life must have been, when you
wasn't there*

*Bridge:
But then I close my eyes, Listen to your heart
Then I know, I'm home*

*Chorus:
You brought me sunshine after the rain, something to hold on to when the nights
where so long
You brought me peace of mind, Love and affection
You brought me sunshine after the rain*

Solo:

*- You brought me sunshine after the rain, something to hold on to when the
nights where so cold*

Chorus:
