

Trail Of Tears

When you love someone, the world just stops, everything circles around your heart

*When you love someone, you forget all the things you do, you're going blind,
You're going deaf, when you love someone*

Bridge:

When you feeling down, love will bring you up again

When you feeling down, love is your only friend

Chorus:

You will crawl on you're knees, you will beg and you will please

You will walk the trail of tears to be with the one

*When you love someone, you never give up, it's never too late to rely on your fate
When you meet the one, you always been waiting for, will it make - your dreams
come true or break your heart in two*

Bridge:

When you getting close, you get scared

When you getting close, nothing can make you lose

Chorus:

- I will walk a thousand miles, for you, for us, for love

Solo:

Chorus:
