

# *When Two Worlds Collide*

*I can hear you calling, I can see it coming, whisper to my soul  
Like a silent thunder, that can take you under, touch your heart and soul*

*Bridge:*

*I'm burning, I'm burning up with love  
Oh let me love you, let me touch you, let's go out of control*

*Chorus:*

*When two worlds collide, you will be my side, and I will always be there  
When two worlds collide, nothing can stand in our way, we're stronger than steel  
When two worlds collide*

*You can see right through me, you can love and hate me, But you always understand  
I know you be there, always beside me, if I reach out my hand*

*Bridge:*

*I'm burning, I'm burning up inside  
Whisper to me, hold me closely, let's go out of control*

*Chorus:*

*Solo:*
